

Stelios Tiantsis

Junior Full-Stack Developer

Passionate Full-Stack Developer with a lifelong dream of pursuing a developer career. Drawing on a problem-solving mindset and resilience from my previous career, combined with the completion of an in-person coding bootcamp and several projects, I'm eager to apply my skills to real-world development challenges, while continuously growing and learning.

EDUCATION

Junior Full-Stack Bootcamp TechPro Academy

03/2024 - 07/2024

Thessaloniki

Brief summary:

- Back-End Technologies learned: Java, PostgreSQL.
- Front-End Technologies learned: Javascript, HTML/CSS, Sass.
- Gained a strong foundation in web development through hands-on training.
- Attended workshops led by senior developers, covering a range of technical topics.

Certificate of professional training in the specialty of "Network and Telecommunications technician" Public Professional Training Institute of Evosmos Thessaloniki (Δ.ΙΕΚ Ευόσμου Θεσσαλονίκης)

10/2015 - 05/2017

Brief summary:

- Gained comprehensive understanding of computer systems and network infrastructure.
- Developed knowledge of network data flow, request-response cycles, and network connectivity principles.
- Core Technologies covered: Network Protocols, Operating Systems, Internet Architecture.
- Fundamental Concepts learned: Algorithms, Data Structures, Computer Architecture.

WORK EXPERIENCE

Taxi Driver Self-Employed

01/2019 - 04/2025

Thessaloniki

Achievements:

- Honed valuable transferable skills throughout my years of experience, including:
- Problem-Solving mindset (e.g. finding alternate routes during road closures).
- Resilience and Stress Management (e.g. maintaining composure in high-pressure situations).
- Interpersonal Communication (e.g. actively listening to passenger needs).
- Time Management (e.g. optimizing routes for efficient travel).

TECHNICAL SKILLS

PHP/Laravel

C#

PostgreSQL

Git

HTML/CSS/JS

Sass

PERSONAL PROJECTS

Video Game E-commerce Platform API (on-going)

- Back-End Technologies: PHP/Laravel/PostgreSQL
- PayPal payment gateway integration with order processing
- Third-party API integrations
- And more to come...

Video Game Management API

- Back-End Technologies: PHP/Laravel/SQLite
- Features: User authentication with role-based access, game CRUD operations, review system, filtering and sorting capabilities
- Built with Docker support, API documentation, and test coverage using Pest PHP
- <https://github.com/Styri/Videogame-Management-API>

Full-Stack Recipe Manager Application

- Front-End Technologies: HTML/SCSS/Javascript
- Back-End Technologies: C#/ASP.NET CORE/ SQLite
- Features: Complete CRUD operations for recipes, favorites toggling, search functionality
- The RESTful API supports pagination and structured endpoints for recipe management
- <https://github.com/Styri/Recipe-Manager-Revamped>

My personal website

- Designed and developed a personal portfolio website using HTML, Tailwind CSS and JavaScript.
- Continuously improving it to include new features and technologies as I learn them.
- <https://styri.github.io/Styri/>
